HOW TO FOLD A SQUARE SHEET IN HALF

1. Place the two lower corners precisely over the two upper corners.

2. Hold down the top of the paper firmly with one hand while you move the other hand down the right side, pressing the paper from top to bottom.

3. Repeat the procedure on the left side.

You must fold correctly in order to make good origami.

Some beginners do not stop to think about this process and fold the paper this way:
